# EVER RISE

ELECTROMECHANICAL WORKS LLC.

Ever Rise Electromechanical Works LLC was established in 2013 in the Emirate of Dubai, by a team of seasoned professionals having hands-on experience and expertise in the field of Mechanical, Electrical and Plumbing Projects.

Ever Rise Electromechanical Works provide MEP solutions to Customers both public and private sectors throughout the United Arab Emirates.

We consciously work towards enhancing efficiency and are proud to have been trusted by clients regionally. Our commitment to job completion on time, uncompromised QHSE Standards and excellent *pre-tender & post-delivery commitments* has made us a partner of choice to Customers.

Our team is comprised of MEP Professionals who held senior executive and engineering positions at Construction Majors such as Thermo LLC, ETA, Six Construction, Samsung C&T, Al Futtaim Engineering, and have experience in tendering and successfully delivering Building as well as Infrastructure projects. Our team members have experience at Dubai METRO, Airport Terminals, Power Plants, Tunnels, Port Facilities and Hospital projects. We have combined experience of more than 100 years in MEP Projects execution.

Ever Rise has demonstrated sound knowledge, requisite capability, and expertise to lead, manage and successfully execute construction projects in the UAE. We enjoy rapport with many reputed Vendors in the UAE who provide advantage in terms of seamless procurement process with technical support.

Ever Rise has under their wings experienced supervisors, technicians and semi-skilled workers with dedication and loyalty. Our Team is well versed with the entire construction process from design verification to procurement to execution and testing & commissioning, in coordination with specialist contractors and compliance with respective Authority requirements.

# Why Ever rise?

A decade of experience and trust.

- The most reliable MEP solutions that exceed expectations.
- Innovative and cost-effective solutions across all MEP systems.
- Proven track record in managing projects from initiation to completion.
- Providing project management approaches that are agile, responsive, and forward thinking, ensuring optimum results to the clients.
- Offering a comprehensive range of maintenance services that cover all aspects of electrical, mechanical, and plumbing services.
- Identifies opportunities for cost savings without compromising quality and safety.
- Close collaboration with clients to understand their needs and tailor our services to meet their unique requirements.
- Team of experts with updated knowledge.
- Delivering projects on time and within budget without compromising quality and safety.

## Our services

### 1. Mechanical, Electrical & Plumbing Services

Our MEP services provide comprehensive solutions for all mechanical, electrical, and plumbing needs. Our team of professionals has the expertise and experience to design, install, and maintain complex MEP systems, ensuring optimal performance, energy efficiency, and cost-effectiveness. Whether it's heating, ventilation, air conditioning, refrigeration, electrical power or lighting, plumbing, or fire protection systems, we deliver high-quality solutions that meet your specific requirements.

### 2. Electrical Fitting Contracting

Our electrical fitting contracting services offer a complete range of electrical solutions, including design, installation, testing, commissioning, and maintenance. Our team of qualified and experienced electricians ensures that all work is carried out to the highest standards in compliance with relevant regulations and standards. Whether it's lighting, power, data, or security systems, we provide innovative and reliable solutions tailored to your needs.

### 3. Maintenance Services

Maintenance Services now popularly known as Facility Management have evolved as a Core Business Model over the years. Facilities – no matter whether residential buildings, business parks, retail spaces – shall stay longer healthy withstanding extreme climatic conditions. It is essential to upkeep not the façade alone but every element of the building in order to ensure its strength and longevity.

We at Ever Rise have now decided to enter in to the realm of Facility Management as a separate business unit, immediately offering Hard Services "MEP".

Our aim is to offer full, flexible and scalable Predictive Maintenance, Planned Preventative Maintenance (PPM) or reactive tasks, managed through cutting edge technology, ensuring optimal utilization and maximum lifespan of assets owned by Customers.

Ultimately, we target to drive down Customers' operating expenses through operations and maintenance (O&M) and energy optimisation, while enhancing better return on investment by improving asset lifecycle.

### 4. Project Management Consultancy

Our project management consultancy services provide expert guidance and support throughout the entire project cycle. We work closely with our clients to understand their needs and requirements and develop customized solutions that meet their objectives. We handle processes like Project planning, Project coordination, Risk management, Quality management, Change management and stakeholder management. Our team of project management professionals has extensive experience in managing complex projects across various sectors, ensuring that projects are delivered on time, within budget, and to the highest standards of quality.
